1. This Legal Topic Note considers the powers and duties of local councils in relation to crime in their area together with guidance on approaches and systems that can be used. The government has stated its support for the use of CCTV in public.

Duty to consider crime and disorder implications

2. Under section 17 of the Crime and Disorder Act 1998 (“the 1998 Act”) a local council has a duty to:

   exercise its various functions with due regard to the likely effect of the exercise of those functions on, and the need to do all that it reasonably can to prevent,

   a. crime and disorder in its area (including anti-social and other behaviour adversely affecting the local environment);

   b. the misuse of drugs, alcohol and other substances in its area and;

   c. re-offending in its area.

The right to be consulted

3. The 1998 Act imposes a duty on district and county councils (in England) and county and county borough councils (in Wales) to publish strategies that cover the above aims. The principal authority is required to consult with others including “persons who appear to the strategy group to represent the interests of as many different groups or persons within the area as is reasonable”. This would include the relevant local councils.

Power to prevent crime

4. Section 31 of the Local Government and Rating Act 1997 permits a local council, in order to prevent or detect crime, to:

   • Install and maintain any equipment;
   • Establish and maintain any scheme; or
• Assist others to install and maintain any equipment or to establish and maintain any scheme.

5. “Equipment” could include:

• Security lighting;
• Alarms; and
• CCTV.

6. Local councils wanting to install CCTV need to comply with a number of laws including:

• Data Protection Act 2018;
• The General Data Protection Regulation;
• Human Rights Act 1998;
• Freedom of Information Act 2000;
• Regulation of Investigatory Powers Act 2000;
• Private Security Act 2001;
• Protection of Freedoms Act 2012 and

This could, in practice, make the use of CCTV complicated, for example it is a requirement of data protection legislation to notify people entering a CCTV protected area that the area is monitored by CCTV and that pictures are recorded. Any local council considering using CCTV should follow the guidance in the Surveillance Camera Commissioner’s Surveillance Camera Code of Practice which can be found at: www.gov.uk/government/publications/surveillance-camera-code-of-practice

and in the picture: A data protection code of practice for surveillance cameras and personal information produced by the Information Commissioners Office which can be found at: https://ico.org.uk/media/for-organisations/documents/1542/cctv-code-of-practice.pdf

Local councils should also be aware of the National Surveillance Camera Strategy for England and Wales issued in March 2017 by the Surveillance Camera Commissioner. Further information can be found at: www.gov.uk/government/publications/national-surveillance-camera-strategy-for-england-and-wales.
Power to make grants

7. Local councils also have the power, under section 92 of the Police Act 1996 to make grants to any police and crime commissioner in their area (Mayor’s Office for Policing and Crime in London). The grant may be subject to conditions if agreed by the Chief Constable. The police could use the grant, for example, to employ:

- Special constables;
- Police cadets; or
- Civilians (including Community Support Officers).
