

Community Notice Board

Following the previous meeting there were comments about the Avenue Notice Board being hinged at the top and this could prove awkward when placing notices.

Having spoken to the manufacturer it can come with stays so can be locked open whilst notices are being placed.

The cost for this notice board is **£753.59 + VAT plus £45.00 for delivery.**

The alternative was the Lynester Notice Board which has double doors but the price for this particular Notice Board was more expensive.

The costs for this notice board are **£1315.00 + VAT plus £45.00 for delivery.**

Both Noticeboards will have thumb locks so they can be always accessible.

Both Noticeboards will be on legs and the legs will need to be placed within the concrete so extra costs may be incurred for this.
